Laundry Cart Washer

## Washing Carts Made Easy...

**SMARTWASH 1500** is our innovative high impact rotating sprayer system for washing popular laundry carts. Our efficient design boasts adaptability and longevity.

With the ideals of our consumers in mind, SMARTWASH 1500 is **affordable, low maintenance** and **efficient** to keep your company moving at full speed.

**STAINLESS STEEL  
STRUCTURE KEEPS  
BACTERIA LEVELS DOWN!**

**SMARTWASH 1500** intelligent design puts speed back into cart washing. Using a friendly control operating system allows for less workers and more production time.

The structure is built as an ideal union between frame and parts. This feature allows for **minimal moving parts, less down time** and **adjustable** to production needs.

### OPTIONAL TWISTER EXPANISON

Through automation, the cart will be elevated and inverted. The cart will then be washed and sanitized. In the inverted position excess water and waste will flush down to a designated drain.
